Mr. President,

The Islamic Republic of Iran while condemning and expressing its deep concern over the situation of human rights and its extensive and systematic violation by the US government at both national and international levels, calls on the US government to implement the following recommendations, which have been derived from the demands of international human rights bodies:

1. To abolish its extrajudicial and extraterritorial laws and refrain from the application of unilateral measures against other countries.
2. To guarantee the complete prohibition of torture in all prisons under its control.
3. To invite UN Special Rapporteurs to visit and investigate Guantanamo Bay prison and US secret prisons and to subsequently close them.
4. To halt serious violations of human rights and humanitarian law – including covert external operations by the CIA, carried out on the pretext of combating terrorism.
5. To make fully consistent all domestic anti-terrorism legislation and action with human rights standards.
6. To legislate appropriate regulations to prevent the violation of individual privacy, constant intrusion in and control of cyberspace as well as eavesdropping of communications, by its intelligence and security organizations.

7. To take effective legal steps to halt human rights violations by its military forces and private security firms in Afghanistan and other states.
8. To put on trial its gross violators of human rights and its war criminals and accede to ICC.
9. To take effective measures to counter insults against Islam and the Holy Quran, as well as Islamophobia and violence against Moslems, and adopt necessary legislation.
10. To guarantee the rights of indigenous Americans, and to fully implement the UN Declaration on the Rights of Indigenous Peoples.
11. To take effective steps to put an end to child prostitution, and effectively combat violence against women and gun violence.
12. To accede to ICSEC and the CRC and ILO convention No.111.
13. To ensure the implementation of its obligations under international humanitarian law vis-à-vis Palestinian people and stop support for the violators of their rights.
